SUMMARY

I am an accomplished Front-End Web Developer skilled in HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, React.js, and Next.js. My expertise spans both development and design, enabling me to create visually appealing and functional interfaces. Currently, I contribute to **Insri Tech Solutions**, delivering innovative solutions that align with client needs and business goals. With a strong track record and commitment to continuous learning, I am passionate about advancing my web development skills and contributing to your team's success.

EXPERIENCE

Front-end Web Developer

Webreate

03/2024 - 06/2024 Dehradun

Leading company in Dehradun

- Collaborated effectively with a multidisciplinary team of developers and designers to build responsive, user-centric web applications using HTML, CSS, JavaScript, React.js, Redux, and Next.js, delivering high-quality solutions on time.
- Developed and maintained reusable, modular components to improve development efficiency, using React.js and Redux for optimal state management.
- Implemented modern responsive design techniques with Tailwind CSS and Bootstrap to ensure seamless cross-browser compatibility and enhance user experience across all devices.
- Worked closely with backend developers to integrate APIs and optimize front-end performance, ensuring smooth data handling and faster load times.
- Conducted code reviews and provided constructive feedback to junior developers, ensuring adherence to best practices and coding standards.
- Optimized web applications for speed and scalability, reducing load times and improving performance by employing advanced performance optimization techniques.

Front-end Web Developer

InSri Tech Solutions

08/2024 - Present

- Developed responsive, user-friendly web applications using HTML, CSS, JavaScript, React.js, and Redux, ensuring a seamless experience across all devices.
- Integrated third-party APIs and managed data flow with Redux to create dynamic, data-driven applications.
- Collaborated with UI/UX designers to implement intuitive designs that improved user engagement and satisfaction.
- Optimized web pages for speed, reducing load times by 30% through code splitting, image optimization, and lazy loading techniques.
- Worked closely with back-end developers to ensure smooth data integration and efficient communication between front-end and back-end systems.
- Wrote clean, maintainable code following industry best practices and coding standards.

EDUCATION

High Secondary

High Secondary

04/2020 - 06/2021 Bihar

Higher Secondary

Higher Secondary School

04/2021 - 03/2024 Bihar

KEY ACHIEVEMENTS
